- **Object Oriented Programming**
- **Git & GitHub**
- **UI Design Principles & Fundamentals**

Currently Learning-

- **UX Research & Design**
- **React**
- **Node.js**
- **API Integration**

Projects-

- **Ariana-Grande-Top-Hits-App-** An app that displays the top five hits for Ariana Grande on Spotify. This app uses the Spotify Web API.

- **Weather App (Vanilla JS)-** An app that displays the weather for a given city typed in. This app uses the OpenWeatherMap Web API.

- **Boyfriend Quiz App-** A quiz app I made for my boyfriend, which tests his knowledge on facts about me. Uses HTML, CSS, and JS.

- **Graphic Design Website**- A static one-page website that shows the implementation of UI Design Fundamentals and Principles.

These projects and many more are available on my Github at:
